Room 125, Science Center, NHCC (Limited in-person seating)

Zoom: <https://minnstate.zoom.us/j/93847911324>

SPEAKER INFORMATION

Nora Willkomm graduated from the University of Wisconsin - Parkside with a BS in Biological Sciences and research focused on morphometric analysis of Wisconsin riverine dragonflies. Now, at UMN, she is pursuing a dual DDS and PhD in Oral Biology, studying retrovirus assembly. Nora is also a licensed dental hygienist in the state of Wisconsin. When not in the lab, Nora enjoys spending time with her son, an energetic 4th grader, playing classical piano and recreational co-ed volleyball. She also participates in dental outreach programs, such as Dental Day, where she educates elementary children on oral health and proper oral hygiene.
